

1. In retrospect, what could you have done better to reduce the time you spent solving this homework?
  - a. I could have started the homework earlier and also went to office hours earlier.
2. What could we, the teaching staff, have done better to improve your learning experience in this homework?
  - a. This general scope of the homework could've been explained better. I was a bit lost in the beginning because there was too little constraints without much documentation
3. What do you know now that you did not know before beginning the homework?
  - a. I learned about running coverage tests, and how to write unit tests that are sufficient. I also learned about how to implement multigraph directed graphs with labels.
